How to find us

FROM 2017 CHRYSANTHEMUMS CAN ONLY BE ORDERED AS A MIXED BOX OR COLLECTION,
IT IS NO LONGER POSSIBLE TO ORDER INDIVIDUAL PLANTS.

THE FOLLOWING PAGES OF THE CATALOGUE CONTAINS PLANT INFORMATION ABOUT INDIVIDUAL VARIETIES THAT WILL MAKE UP THE COLLECTIONS AND MIXED BOXES AS ALL PLANTS SENT WILL BE CLEARLY LABELLED.

MIXED BOXES

SPECIAL OFFER FROM APRIL ONWARDS OF PLANTS TO BE COLLECTED FROM THE NURSERY

BOXES CONTAINING APPROXIMATELY 35 PLANTS IN 5 VARIETIES @ £28 per box (collected in store)

A mixed box of 35 cuttings of five varieties for £28 per box in selections of earlies, early November and Christmas flowering varieties. These are a bargain, you can only select your own box from the greenhouse bench. They are the only plants it is not necessary to order in advance.

Mixed boxes are available through the post from May onwards. Because of the size of the plants and packaging required, this incurs an extra charge. Each mixed box is charged at £36 including postage.

COLLECTIONS

As the many of customers collect their plants we thought it better to charge carriage per order and not for each collection. There is no carriage on collected orders

Anyone not familiar with varieties should take advantage of the following collections which is a full comprehensive list. Just state when you want to flower them and the time you wish to receive the cuttings.

Typical displays from some of our collections

Chrysanthemum Plant Information

**From September 2017 orders will
only be taken for Collections**

The plants within that collection will be clearly labelled.

The following booklet provides information about plant varieties.

EARLY BLOOM Available from Early February

FOR INFORMATION ONLY. SPECIFIC PLANT VARIETIES NO LONGER AVAILABLE AS INDIVIDUAL PURCHASE

IF ORDERING A COLLECTION OF EARLY BLOOMS ALL PLANTS WILL BE LABELLED AND PLEASE USE THE FOLLOWING INFORMATION FOR REFERENCE

ALICE JONES (24B)* A bronze reflex of immaculate form. Short sturdy grower with dark green foliage. Height 3ft 6ins. Stop mid May	
ALLOUISE (25b) (O) A clear pink with broad incurving petals. Crop early under glass or September outdoors or from late cuttings in October under glass.	
WHITE ALLOUISE	PEACH ALLOUISE
ALLYSON PEACE (24A) A bright yellow September reflex of excellent form. Height 4ft to 5ft. Stop 1st	
ANN DICKSON (25A)* A striking orange bronze intermediate, a huge flower of immaculate form grown on vigorous plants. Height 4ft. Stop early May.	
BILL WADE (25A) A white intermediate of immense size and form, which will make this an excellent variety for exhibition. Height 4ft 6in. Stop 10th May	
BILLY BELL (25A) A clear large white intermediate. Height 4ft 6ins. Stop mid April	
YELLOW BILLY BELL	
BRUERA (24B)* A reflex white of outstanding quality. Very large neat flowers are borne on strong stems. Easy to grow. Height 3ft 6ins. Stop end of May.	
CLAPHAM DELIGHT (23A) Cream incurved of good form. Height 3ft. Stop early April.	
CORNETTO (25B) Yellow incurved of excellent form. A refreshing flower enhanced by a tint of green. Good grower, excellent for exhibition and weatherproof for the garden. Height 4ft. Stop mid May.	
COURTIER (24A) A solid pink reflex, good petal lay, that builds into blooms of good shape and depth. Height 3ft 6ins. Stop 15th May	
DENNIS TURNER (15B) (Cr) Tightly incurving intermediate of a rich cream colour, rarely seen. Can be grown as an early or late. Stop early April for an early flower and best second crown, 15th April & 10th June as a late.	
DEVA GLOW (25A)* (C) A large clear yellow intermediate. Grown on dwarf easy to manage plants that also make a suitable cut flower variety for September flowering. Height 3ft 6ins. Stop early May	
DORRIDGE BEAUTY (24A) A large deep crimson reflex of striking colour. Weather resistant. Height 4ft. Stop mid April	
DORRIDGE CRYSTAL (24A) A shining white reflex and immaculate petal lay. An excellent exhibition variety. Height 4ft. Stop early May.	
RED EARLY BIRD (24B) A red spiky reflex very early flowering under glass or outside.	
ROSE EARLY BIRD (24B) A rose spiky reflex very early flowering under glass or outside.	
EMMA LOU (23A) A large yellow incurve, something of a rarity these days. An incurve that goes back to the stem and finishes well on top. Stop mid May.	

ERMINE (23A) The perfect incurved white which is always greatly admired. A large flower carried on good stems with small elaves. Stop early June.
FORMCAST (24A) The perfect purple reflex with broad petals. Requiring the minimum of dressing, perfectly weatherproof. Height 3ft.
GINGERNUT (25B) A very neat bronze incurve that finishes perfect on top. Height 4ft. Stop
GLADYS SHARP (25A) A beautiful rich yellow of immense size and quality. The plant is
GRACE WADE (25B) A light bronze intermediate. Height 4ft. Stop early April for September or early June for November.
HANNAH BOOTE (24B) A neat petalled salmon pink reflex. Height 4ft. Stop early May.
HAZEL ZWAGER (24B) Salmon pink of reflexing form. Weatherproof.
JOYCE FREDA (23B) A yellow incurve early of excellent form. Stop 1st April for early flowering but will flower later from later stop. Height 4ft.
JULIE ANN (25B) An attractive light pink - almost salmon, incurving in form.
Keystone (25B) An intermediate purple with silver reverse outstanding as a Show chrysanthemum and for cutting. Height 4ft. Stop 1st June.
LYNDALE (25B) A clear light yellow of incurving form. August and September flowering.
MATLOCK (24B) sizeable medium reflex of striking red in colour. Excellent petal lay building to flower of good depth. Height 4ft. Stop end of May.
MAX RILEY (23B) Good incurves are hard to come by and this deep yellow incurve is sure to be in demand. Good globular form and hard petalled. Height 3ft 6in. Stop end April.
MILLENIUM (25B) rich yellow intermediate. Height 4ft. Stop late April.
MUSIC (23B) A pleasing September rose pink incurved, excellent for cutting as well as exhibition. Stop 10th April. Height 4ft.
PACKWOOD (23B) (C) (O) A tightly incurved deep yellow each finishing to a perfect ball. Requires early stop.
POT BLACK (24B) (O) As the name suggests, an intense velvet purple reflex. Good depth requiring the minimum of dressing. Height 4ft. Stop mid April
RACHEL KNOWLES (25A) A pale pink large intermediate. An easy to grow plant of wonderful shape and form with small dark foliage. Height 4ft 6ins. Stop mid April for September shows.
SAM OLDHAM (24B) A large deep red reflex which holds its colour well. Height 3ft 6in. Stop 15th May.

OCTOBER / NOVEMBER BLOOMS Available from Early February

FOR INFORMATION ONLY. SPECIFIC PLANT VARIETIES NO LONGER AVAILABLE AS INDIVIDUAL PURCHASE

IF ORDERING A COLLECTION OF OCTOBER OR NOVEMBER BLOOMS ALL PLANTS WILL BE LABELLED AND PLEASE USE THE FOLLOWING INFORMATION FOR REFERENCE

ALAN FOXALL (3B) A golden bronze incurve of classic form. Height 4ft 6in. Stop early to mid May.
AMY SHOESMITH (15A) Closely incurving October blooms of bright clear pink with a wonderful satin sheen. An exceptionally beautiful flower. Stop end May.
BEACON (5A) A superior incurving decorative of a very bright red and gold. Perfect dwarf grower carrying a heavy crop.
BURNWOOD BELLE (3B) (W) A natural late pure white incurve grows to a compact height of 3ft. Produces globular good sized flowers. Stop late April to secure bud 1st week in August.
CHEDDAR (13A) A refined deep yellow October incurve, very resistant to Damping. Height 3ft.
CHESTER MILLENIUM (4B) (Pu) Purple reflex with overlapping flat petals. Needs a May stop around 15th-25th for early to mid November shows. Could also come as an early and suggest a 1st April stop.
CORNGOLD (5B) A golden amber incurving with glistening petals. Good for exhibition and cut. Height 4ft 6in.
CRYSTAL FOUNTAIN (14B) A delicate light pink reflex with broad petals. Height 4ft. Dual purpose variety for early show stop 1st April, for late show stop 1st June.
DENIS BARBER (15B) A tight petal intermediate of good form, silver pink in colour. Height 4ft. A dual purpose variety, stop early April for early show, early June for late shows.
DOREEN STATHAM (4B) A dark crimson reflexed of good size. A quality bloom reflexing back to the stem makes it ideal for exhibition. Height 5ft. Stop natural break.
DOUBLE EVENT (5A) A clear white incurving intermediate, a tight solid flower of good size. Height 4ft. Stop June 10th.
FAIRWEATHER (3B) A very neat medium incurve. Colour light purple showing more silver on its reverse. Short stocky grower. Stop early June.
SALMON FAIRWEATHER
WHITE FAIRWEATHER (3B)
YELLOW FAIRWEATHER (3B) A clear yellow sport.
GEOFF BRADY (5A) A deep red with gold reverse. Height 5ft. Stop early June.
GLADY EMERSON (3B) A late incurved must have the quality of a John Hughes and this variety has all the necessary pedigree to compete in this class. A gold incurved of exhibition form. Height 4ft. Stop early June.
GRACE HOLDEN (15B) A dual purpose tight incurve light yellow. For early flowering stop early April, for late flowering stop early June. Height 4ft.
HESKETH KNIGHT (5B) A bronze registered as an intermediate but with narrow petals that finished as a perfect incurved. Height 4ft 6ins. Stop early June.

JACK HARDWARE (14A) Seedling from John Nevill bright red reflex needing the minimum of dressing. Dark green foliage. Stop 2nd crown 20th April and 4th t 20th June. Height 5ft.
JOHN HORSELL (5A) A tight petalled bronze of excellent form. Height 4ft. Stop mid to end of April.
JOHN HUGHES (13B) A pure white incurve of perfect short upright habit. Height 4ft.
PRIMROSE JOHN HUGHES (13B)
YELLOW JOHN HUGHES (13B)
KAY WOOLMAN (13B) A pure white incurved. A strong grower of good shape and form. Height 4ft 6 in. Stop early June.
LAURIE FITTON (3B) A yellow incurve of excellent form, reminds me of both growth and flower form of a good incurved Gold Foil, strong sturdy grower. Height 4ft. Stop early June.
LEN'S GIRL (4B) A rose pink reflex of excellent form with good depth. Height 4ft. Stop mid May.
LILIAN SHOESMITH (5B) The orange bronze flower is of tightly incurving formation. A very strong grower, approx 4ft in height.
MARYS MIRACLE (14A) Large light pink reflex with long petals that fold neatly into place. Height 4ft. Stop early April.
NORTON VIC (5B) (PU) A purple intermediate which grows to a height of 4ft on 2nd crown. Second stop mid June to secured bud in mid August.
OLWYN (4B) A white reflex of excellent form for a variety of this section. Needs minimum of dressing. Height 4ft. Stop early June.
AMBER OLWYN (4B) An excellent colour break from the parent.
PATRICIA MILLAR (14B) A lovely salmon pink reflex of excellent form and depth. A much needed addition to this section. Height 4ft. Stop early June.
CREAM PATRICIA MILLAR (14B) A creamy white sport with all the qualities of its parent.
ROSE PATRICIA MILLAR (14B) A rich rose pink sport.
PEARL EDWARD SHAW (5A) A large silvere pink intermediate, a much better grower than most in the November section. Stop early June. Height 4ft.
POLAR GEM (3A) A true incurved white with good keeping qualities. Strong upright grower. Height 4ft 6in.
PRIMROSE CHARLES TANDY Incurving.
PURPLE GLOW (5A) A large intermediate with colour, size and refinement that makes a perfect vase. Height 4ft 6in. Stop early April.

OCTOBER / NOVEMBER BLOOMS & OCTOBER / NOVEMBER SINGLES

FOR INFORMATION ONLY. SPECIFIC PLANT VARIETIES NO LONGER AVAILABLE AS INDIVIDUAL PURCHASE

IF ORDERING A COLLECTION OF OCT OR NOV BLOOMS/SINGLES ALL PLANTS WILL BE LABELLED AND PLEASE USE THE FOLLOWING INFORMATION FOR REFERENCE

OCTOBER / NOVEMBER BLOOMS CONTINUED Available from Early February

RED KEN (4B) Named after Ken Dear. A bright colour for a bright personality, glowing red reflex of excellent form. Height 5ft. Stop mid May 3 up.

ROY COOPLAND (5B) An attractive bronze incurving decorative bloom. Good habit with strong stems. Height 4ft 6in.

STOCKTON (3B) A rich purple incurve that tends to show a rather dark reverse to the petal, which makes this a very distinctive and eyecatching flower. Excellent form and finishes well on top with hard petals. Height 4ft 6in. Stop early June.

WILLIAM FLORENTINE (15A) Silver pink intermediate of tight form which finishes well on top. A big flower that maintains its form well. Height 4ft 6in.
